

7/4/2007

Dear Sir

You are cordially invited to attend a symposium on

**“CURRENT DANGERS OF NUCLEAR WEAPONS”**

Landtingssalen, Christiansborg Palace, 1240 Copenhagen K  
13.00-17.00, 27 September, 2007

The symposium will discuss a number of serious dangers posed by nuclear weapons despite the end of the Cold War. These include the weakening of the Nuclear Nonproliferation Treaty, the spread of nuclear weapons associated with nuclear power generation, dangers from inadequately guarded plutonium and highly-enriched uranium, the danger of accidental nuclear war, the danger that tactical nuclear weapons will be used in a war and the dangers of nuclear terrorism. A tentative program of the symposium is attached. The organizing NGO's believe that the time has come for the total abolition of nuclear weapons.

RSVP/SU: Because the number of seats in Landstingshallen is limited, we would very much appreciate it if you would let us know, before 1 August, whether or not you would like to attend the symposium. If you would like to attend, we also need your name in order to inform the security guards at the entrance to Christiansborg Palace. Please write to [john@ccs.ki.ku.dk](mailto:john@ccs.ki.ku.dk) or send a note to Dr. Jens-Christian Navarro Poulsen, H.C. Ørsted Institute, Universitetsparken 5, 2100 Copenhagen Ø. or e-mail at [jnp@ccs.ki.ku.dk](mailto:jnp@ccs.ki.ku.dk). Expect a reply of recognition of your registration for the symposium.

With many thanks and cordial greetings from the organizers:

The Danish Pugwash Group ([www.pugwash.dk](http://www.pugwash.dk)), The Mandela Centre, Soka Gokkai International, Dansk Læger Mod Kernevåben, The Danish Peace Academy, and International Network of Engineers and Scientists for Global Responsibility.
